

ITOCHU ENEX Announces Introduction of a Self-consumption Solar Power Generation Service to CKD Thai Corporation Ltd. in Thailand

ITOCHU ENEX CO., LTD. (Headquartered in Chiyoda-ku, Tokyo; Tomofumi Yoshida, Representative Director, President and CEO) announces that its Group company, ITC ENEX (Thailand) Co., Ltd. (hereinafter, “IET”), has introduced a self-consumption solar power generation service (hereinafter, “the Service”) to CKD Thai Corporation Ltd., a group company of CKD Corporation (Headquartered in Komaki-shi, Aichi-ken, Japan; Katsuhito Okuoka, President and CEO).

The Service, which is provided by IET, installs solar power generation equipment on the rooftops of plants, warehouses, and other facilities owned and managed by customers, enabling them to consume the generated electricity.

Toward the goal of achieving carbon neutrality by 2050, the Service enables customers to reduce CO₂ emissions and energy costs through the consumption of eco-friendly electricity they have generated themselves from renewable energy sources. The initial installation cost of the solar power generation equipment, as well as the maintenance and management costs during the contract period, are assumed by IET. The customers are charged a service fee at a fixed rate based on their electricity usage. This model makes the Service readily available for customers.

To achieve carbon neutrality, ITOCHU ENEX Group will continue striving to provide eco-friendly energy services, such as making greater use of utilizing renewable energy and helping customers save energy and cut electricity costs.

Overview of the service introduced	
Facilities	CKD Thai Corporation Ltd.
Location	700/58 Moo 1, Tambol Bankao, Amphur Panthong, Chonburi, 20160, Thailand
Solar panel capacity	461.680kW
Estimated CO ₂ reductions	Annual average of 279 tons
Estimated reduction in purchased grid electricity	Annual average of 24.2 %
