

**ITOCHU ENEX Introduces TERASEL Solar, a Self-consumption
Solar Power Generation Service, at the head office factory of Sanyo Co., Ltd.**

ITOCHU ENEX CO., LTD. (Headquartered in Chiyoda-ku, Tokyo; Kenji Okada, Representative Director, President and CEO; hereinafter referred to as "the Company") announces that it has introduced its self-consumption solar power generation service, TERASEL Solar, at the head office factory (Shikokuchuo -shi, Ehime) operated by Sanyo Co., Ltd. (Headquartered in Shikokuchuo -shi, Ehime; Hisamitsu Ishikawa ,President, hereinafter referred to as " Sanyo ").

This fixed-fee service installs solar power generation equipment on the rooftops of plants, warehouses, and other facilities to enable customers to consume the electricity they have generated themselves. In the current situation with every company being required to take environmental measures with the goal of establishing a carbon-free society by 2050, this business model enables customers to reduce CO2 emissions and energy costs through the consumption of eco-friendly electricity they have generated themselves from renewable energy sources.

The power consumption is expected to be reduced by approximately 28% and CO₂ emissions are projected to decrease approximately 54 tons from the levels prior to the introduction of this service. The Company will bear the installation costs of the solar power generation equipment and will handle the burdensome task of managing and maintaining the equipment, making this model extremely easy for customers to introduce.

The Company will further strengthen its ties with Sanyo through this service, contributing to the creation of a sustainable society by continuing to provide a range of environmental products centered on the self-consumption solar power generation service, TERASEL Solar.

Head office factory of Sanyo Co., Ltd.	
Location	357-1, Omachi, Toyooka, Shikokuchuo-shi, Ehime
Solar panels	183.12kW
Estimated CO2 reductions	Annual average of approx. 54.0 tons
Expected reduction in power usage	Annual average of 28.0%
Start of operations	October 1, 2022
